

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

Claims 1- 33 (CANCELLED)

34. (NEW) A method of reporting adverse event information, said method comprising;

associating each one of a selectable plurality of popular terms with one or more related standardized terms; ~~L2, 8-10~~; L8, 45-46 & L14, 22-32.

providing a user interface having said selectable plurality of popular terms and a related selectable graphical depiction for reporting adverse event data associated with said selectable graphical depiction, reviewing said reported adverse event data and monitoring said reported adverse event data; and L3, 37-50

selecting one or more of said plurality of selectable popular terms and at least a portion of said selectable graphical depiction; and L4, 63-67

generating a standardized report comprising said one or more related standardized terms associated with said selected one or more of said selectable plurality of popular terms. L1, 36-43 & L3, 45-50

35. (NEW) The method of claim 34 further comprising transmitting said standardized report to an appropriate regulatory body. W1, 25-35

36. (NEW) The method of claim 34 further comprising storing said popular and standardized terms associations in a storage medium. L3, 45-50

37. (NEW) The method of claim 36 further comprising storing said standardized report in a storage medium. ~~L 3, 45-50~~
38. (NEW) The method of claim 37 further comprising associating said selected one or more of said plurality of selectable popular terms and related standardized term(s) with said selected at least a portion of said selectable graphical depiction and storing said associations in said storage medium. ~~E 6, 37-54~~
39. (NEW) The method of claim 34 further comprising editing said reported adverse event data. ~~L 11, 47-67 & L12, 1-21~~
40. (NEW) The method of claim 34 wherein said plurality of popular terms comprises descriptive medical and diagnostic indicia. ~~L 3, 8-13~~ ~~E 11, 17-30~~
41. (NEW) The method of claim 34 wherein said plurality of popular terms comprises performance measurement information. ~~L 7, 13-17~~ ~~W 1, 43-54~~
42. (NEW) The method of claim 34 wherein said graphical depiction comprises an animal body and wherein said plurality of popular terms comprises related common descriptive terms. ~~W 19, 10-11; W 6, 52-60~~
43. (NEW) The method of claim 34 wherein said graphical depiction comprises a human body and wherein said plurality of popular terms comprises related common descriptive terms. ~~W 13, 61-62; W 6, 52-60~~
44. (NEW) The method of claim 34 wherein said graphical depiction comprises a product and wherein said plurality of popular terms comprises related common descriptive terms. ~~W 6, 52-60~~ ~~2~~ ~~G 23, 3~~

45. (NEW) The method of claim 34 wherein said graphical depiction comprises a mechanical system and wherein said plurality of popular terms comprises related common descriptive terms. ~~5-6066~~ 42, 49 - 56

46. (NEW) The method of claim 34 wherein said graphical depiction comprises an electrical system and wherein said plurality of popular terms comprises related common descriptive terms. ~~W13, 54-61, W6, 52-60~~ 423, 13-15

47. (NEW) The method of claim 34 wherein said graphical depiction comprises a biological system and wherein said plurality of popular terms comprises related common descriptive terms. ~~W6, 52-60 & W9, 32-33~~ 418, 27-28

48. (NEW) The method of claim 34 wherein said graphical depiction comprises a chemical system and wherein said plurality of popular terms comprises related common descriptive terms. ~~W3, 63-66 & W6, 52-60~~ 46, 62-64

49. (NEW) The method of claim 34 wherein said graphical depiction comprises a hybrid system and wherein said plurality of popular terms comprises related common descriptive terms. 42, 35

34

50. (NEW) A system for reporting adverse event information, comprising;

a processor configured to:

associate each one of a plurality of selectable popular terms with one or more related standardized terms;

generate a user interface having said selectable plurality of popular terms and a related selectable graphical depiction for reporting adverse event data associated with product use and the effects caused to said graphical depiction, review said reported adverse event data and monitor said reported adverse event data; and

process a selected one or more of said plurality of popular terms and at least a selected portion of said graphical depiction; and

generate a standardized report comprising said one or more related standardized terms associated with said selected popular terms and graphical depiction.

35 51. (NEW) The system of claim 50 wherein said processor is in communication with an appropriate regulatory body and is further configured to transmit said standardized report to said appropriate regulatory body.

36 52. (NEW) The system of claim 50 further comprising a storage medium and wherein said processor is further configured to store said standardized report in said storage medium.

37 53. (NEW) The system of claim 52 wherein said processor is further configured to store said popular and standardized terms associations in said storage medium.

38 54. (NEW) The system of claim 53 wherein said processor is further configured to associate said selected one or more of said plurality of selectable popular terms and related standardized term(s) with said selected at least a portion of said selectable graphical depiction and storing said terms-graphical depiction associations in said storage medium.

39 55. (NEW) The system of claim 50 wherein said processor is further configured to edit said reported adverse event data.

40 56. (NEW) The system of claim 50 wherein said plurality of popular terms comprises medical and diagnostic indicia.

41 57. (NEW) The system of claim 50 wherein said plurality of popular terms comprises performance measurement information.

42 58. (NEW) The system of claim 50 wherein said graphical depiction comprises an animal body and wherein said plurality of popular terms comprises related common descriptive terms.

43 59. (NEW) The system of claim 50 wherein said graphical depiction comprises a human body and wherein said plurality of popular terms comprises related common descriptive terms.

44 60. (NEW) The system of claim 50 wherein said graphical depiction comprises a product and wherein said plurality of popular terms comprises related common descriptive terms.

45 61. (NEW) The system of claim 50 wherein said graphical depiction comprises a mechanical system and wherein said plurality of popular terms comprises related common descriptive terms.

46 62. (NEW) The system of claim 50 wherein said graphical depiction comprises an electrical system and wherein said plurality of popular terms comprises related common descriptive terms.

47 63. (NEW) The system of claim 50 wherein said graphical depiction comprises a biological system and wherein said plurality of popular terms comprises related common descriptive terms.

48 64. (NEW) The system of claim 50 wherein said graphical depiction comprises a chemical system and wherein said plurality of popular terms comprises related common descriptive terms.

49 65. (NEW) The system of claim 50 wherein said graphical depiction comprises a hybrid system and wherein said plurality of popular terms comprises related common
